Dear Nick

I would like to take this opportunity to thank you and your team for such a smooth transfer over from our existing suppliers. We are very happy with the solution provided by Nix Communications and it has made a significant difference to our company's operations.

I would like to mention in particular your sales consultant Mark Brown who promised us that if we changed over to Nix Communications the new package would cost us slightly less than we were currently spending. He was right! Please pass on my thanks to mark and the team.

A job well done!

Yours sincerely

Steve Shaw
Sales and IT Manager
